

Promoting Positive Behaviour Statement

Autumn 2021

Here at East-the-Water Primary School we promote good behaviour, self-discipline and respect. Governors, parents and staff believe that good behaviour ensures that pupils can access learning and can be committed to all aspects of an extending curriculum. Together governors, parents and staff ensure all pupils are supported, are listened to and are safe from emotional or physical harassment or harm. All pupils will strive to reach their full potential, continuing to make maximum progress, having the ability to independently self-regulate positive social and emotional behaviour.

Here at East-the-Water Primary School we celebrate difference. In different situations or environments, some pupils are unable to regulate their behaviour without support. The school will embrace the opportunity to work with other agencies ensuring that significantly differently behaved pupils are assessed, supported and that other pupils' learning is not disrupted. All pupils and families will together strive to be ambitious and will achieve as a result of high self-esteem and confidence.
