

How to use Google Classroom

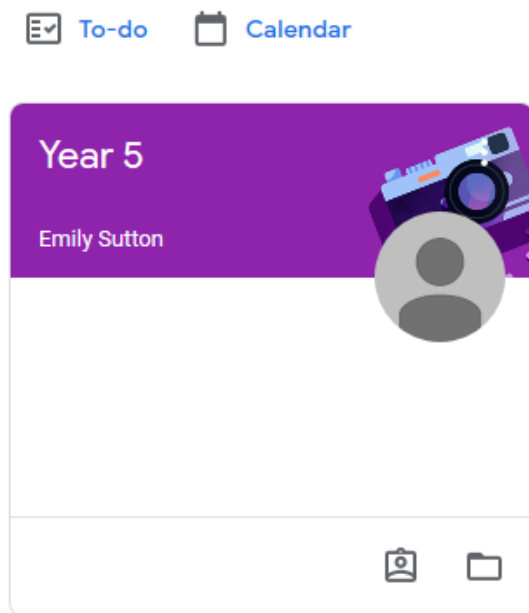

1. First, open the internet and search for Google Classroom.

2. You will be asked to sign in. Your child's login details will be given to you. Please ensure it follows the same format as shown below:

3. Once you have logged in, you will need to click on your child's year group—they would have already been pre-added to this classroom.

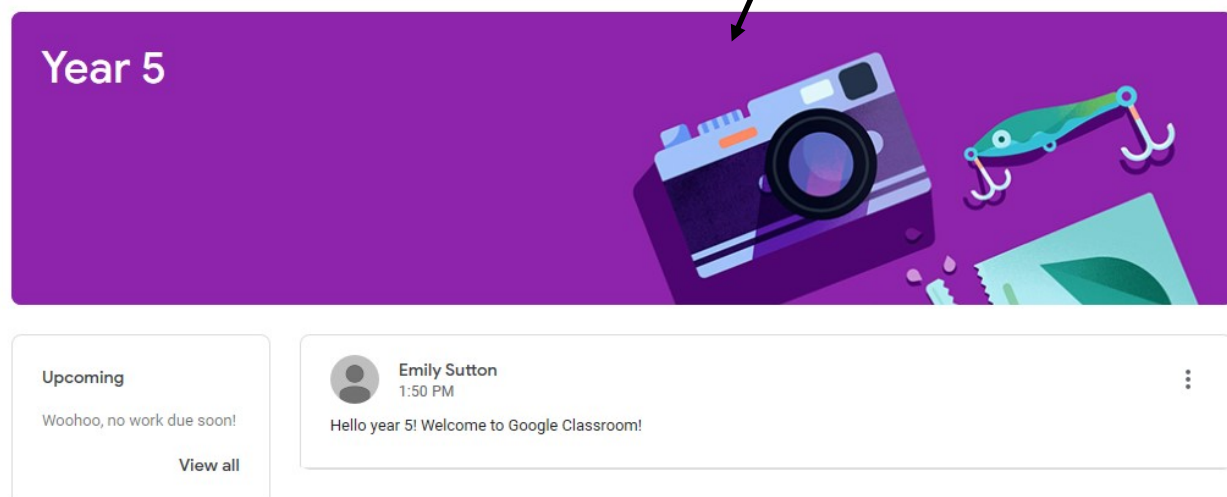

4. At this point, you will be on your child's classroom page—this is called the **stream**.

On the stream you will be able to see:

- any messages left by your child's teacher
- any upcoming work that is due for submission

Stream Classwork People

5. When completing work set by your child's teacher, you will need to click on the 'classwork' tab at the top.

Stream **Classwork** People

The tasks set will be organised under sub-headings depending on subject.

6. To complete a task, click on the title and it will expand to show you the files attached. Any additional instructions given by the teacher will be here too.

Click on 'view assignment' to see a full-screen version of this.

Maths

Rounding to the nearest 10, 100 and 1000.

Due 10:00

Posted 2:05 PM (Edited 2:09 PM)

Watch the video, try the first question with me and then complete the worksheet.

7. Click on the task to open up Google Docs —it will **automatically save** your child a copy with their name in the title. When finished, you will need to click the 'Turn in' button to submit your work.

If you submit before the deadline, you have the option to re-do the task. To do this, press the 'unsubmit' button and then 'Turn in' again once you are finished.

Unsubmit

If you have any questions or need any clarification on the tasks that have been set, there is a 'private comments' section. This is a conversation chat between you and your child's teacher, no other students will be able to see these messages.
