

Safeguarding Statement

Our school community is committed to safeguarding and promoting the welfare of children and young people.

We expect all staff and volunteers to share this commitment.

We recognise that all adults, including temporary staff, volunteers and governors, have a full and active part to play in protecting our pupils from harm, and that the pupil's welfare is our paramount concern. (The word 'staff' is used to cover all staff on site, including employed staff, governors, self-employed staff, contractors and volunteers working with children.)

Our school community will;

- Establish and maintain an ethos where children feel secure, safe and know they can talk to a listening adult
- Employ only staff who are safe to work with children
- Ensure all staff know that the Safeguarding Officer is the Headteacher
- Ensure all pupils know which adults to alert if they need help

The Senior Designated Safeguarding Officer is the Headteacher
